

Kid Report Permission Slip

We are starting a new program called Kid Report. The teachers will be able to send your daily sheets via email instead of hand writing them, as well as photos of your children throughout the day. It will help the teachers spend more time focused on your children. A lot of daycares are using this program already, and we have heard good reviews. There is a free app you will be able to download called "Kid Report". You will have to set up an account with them.

Some of the photos that will be taken may include projects they are working on during that day, lunch time, recess time, etc. There is a chance that your child may be in a photo with other students. Once the photos are emailed to the parent along with their daily sheet, they will have the opportunity to save that photo on their computer or phone. There is the possibility that some parents might post those photos on their Facebook page or Instagram account. With that being said, we need to have your permission to send you photos, even if you signed the Photo Release paper when you first registered.

We are really excited about this program, and we hope you find it helpful.

Family & Friends Daycare Center

I give Family & Friends Daycare Center permission to take/send photos of my child to me through Kid Report.

I do NOT give Family & Friends Daycare Center permission to take/send photos of my child to me through Kid Report.
